FULL SIZE MODEL ENGINE FOR "FLYING TEST BED"™

PROJECT: Full size model engine for "flying test bed"™
CLIENT: Marshall Aerospace
DATE: 16 October 2008
DURATION:

PROJECT DETAILS

Ogle Models and Prototypes Ltd used its model making expertise on this project with a leading aerospace company.

What we did:

- Generation of stl files from 3D CAD data
- Manufacture of model to highly exacting dimensional tolerances
- Fabricating external surfaces and mounting points with aluminium
- Modelling pipework through SLS and CNC
